The engine is available in two versions: the MPI and the TKS. Both are among the many MerCruiser engines compatible with the Alpha One sterndrive system. When mated, the system is commonly referred to as an "inboard/outboard" because unlike an outboard engine, the engine is mounted inside the boat, but the drive system is

I have a Mercruiser Alpha one, 4.3L, 175 hp. Runs great when first starting, including 25-30 mph speeds, with OK acceleration. But after running for 5-10 minutes, it severely hesitates under heavy acceleration from a stop, has small backfires, and even quits running altogether during the acceleration.
