I have a 1995 Sea Doo Speedster boat with the twin Rotax ...
Answered a Craigslist ad for a free 1995 Speedster and this is what I got. Initial inspection at the prior owners house revealed that both of the engines were siezed. Get it home and start getting into it, both of the engines run. One was a stuck piston, the other was a siezed pump. Boat was totally complete, right down to the ignition key, safety lanyard, and the Shorlander trailer.
