NWS Motors Services was founded in 2006 to fill an empty space in the market for engines for Land Rover, Range Rover and Jaguar Vehicles. More and more people were having engine problems with their Land Rovers, Range Rovers and Jaguars but no garage was offering affordable solutions to put these vehicles back on the road.

NWS Motor Services | Leading Independent Land Rover Engine ...

In September 2010 the Freelander 2 was facelifted with a new grille, lights and bumpers, but the big changes came under the skin. The 2.2-litre TD4 engine was replaced by a new unit (the same size) which is available in two outputs of either 150bhp or 190bhp and all manual models come with an engine stop/start system as standard.

Land rover discovery 4 parking brake reset

I have a 2005 Land Rover Freelander with a 2.0L TD4 engine. I have recently noticed that my car is slower to start, and the engine idles rough for about 30 secs, but then it just runs smoothly once warmed up. In addition to that, greyish smoke comes out of the exhaust for about a minute, and then just disappears.

Why is My Car Slow to Start? - BlueDevil Products

Honda went back to the drawing board and launched the current shape CR-V in early 2002. And now, using the opportunity of its new 2.2 litre diesel engine, has refreshed that design for 2005. Outside it has a new front grille, new headlamps, new pedestrian friendly front bumper and new wheel-arch protectors.

Review: Honda CR-V (2002 - 2006) | Honest John

Common rail direct fuel injection is a direct fuel injection system built around a high-pressure (over 2,000 bar or 200 MPa or 29,000 psi) fuel rail feeding solenoid valves, as opposed to a low-pressure fuel pump feeding unit injectors (or pump nozzles). High-pressure injection delivers power and fuel consumption benefits over earlier lower pressure fuel injection, [citation needed] by ...
