International DT466E trouble codes. | The Diesel Stop
I can't remember which way worked for me. I did this with my 12-ton that threw an engine code on my way back from Atlanta. I called my local IH dealer and that is what the service manager told me to do. When I did it, the display lights blinked, then the screen that normally shows the odometer read "2 faults", then flashed a code for each one.

2010 International 4300 Engine Codes
2010 international 4300 maxxforce DT ENGINE , have 2 active codes , we jump started truck several times and just replaced egr coolers only not egr valve , no other issues , could this be fuses be blew or something we did , thanks

SERVICE MANUAL - Navistar
The code being thrown indicated a problem with a DPF pressure sensor and the DPF was unable to fire as long as that light remained on. Anyone with a newer truck knows this just isn't a good thing. Both pressure sensors were replaced. Code remained active. Notes to International, questions, more notes....
