Model 242 transfer case is a chain-driven, 2-piece aluminum case, with full time operation. Torque input in 4WD high and low range is undifferentiated.

DIY: Rebuild the New Process 242 Transfer

Case - FOUR ...

The NP 242 transfer case can be switched between 2wd and either 4wd mode at any speed simply by moving the lever. The switch to low range must be made at very low speed - the Jeep manual says 3 mph. One common operating problem with the 242 transfer case is that it will stick in 4wd even if the lever is moved to 2wd.
