How To Tune Up a MerCruiser MPI Sterndrive - PowerBoat TV

You may need a marine tune-up kit for your distributor and inboard boat if it doesn't start, it's running rough (misfiring) or stalls. Here are a few things to check: The cap and rotor could be bad, a module if its electronic distributor or your points and condenser could also be acting up. Note: Automotive tune-up parts are generally NOT for marine use.

The great folks at Indmar have done some fantastic work to debunk some of the "myths" around oil usage & consumption for our boats that get loaded with ballast for wakeboarding and surfing. We've had some good debates on this forum, so I hope this helps you out. Bottom line is that if you load up with ballast to wakeboard or wakesurf, stay on the safe side by checking your oil level often and ...
