The L72 was a Big-Block engine produced by Chevrolet between 1966 and 1969. Initially rated at 450 horsepower, the rating dropped to 425 hp shortly after its release. In 1966 it was the most powerful engine available in the Corvette, and between 1966 and 1969 was the most powerful engine available in full-sized models. In 1969 the L72 was available via a Central Office Production Order in Chevrolet's intermediate and pony car. Today these vehicles - referred to as COPOs - are among the most coll

### *1972 Corvette Specifications | HowStuffWorks*

1972 Corvette While the 1972 Corvette came with a 270hp big block 454, Californian's were out of luck because the car could not be sold in California due to stricter emission standards. California drivers would have to settle for the 255hp small block 350 which really did not put out that much less power than the bigger engine anyway.
