A number of hypotheses exist on many of the key issues regarding the domestication of the horse. Although horses appeared in Paleolithic cave art as early as 30,000 BCE, these were wild horses and were probably hunted for meat. How and when horses became domesticated is disputed. The clearest evidence of early use of the horse as a means of transport is from chariot burials dated c. 2000 BCE.

Americas Man On Horseback By

This makes a dictator, a "man on horseback" to rein in an out-of-control nation, plausible and perhaps attractive- a historically sound proposition, but a first for America. Odom offers no suggestions to correct today's social ills. Instead, he applies his own brand of Machiavellian and Swiftian logic in writing to the future "man on horseback."
