Essentially, ultralight helis are small, bare bones models without the protective shell normally seen on helicopters.

What is an Ultralight Helicopter?

Ultralights. Ultralight flying represents one of the fastest and purest ways to experience the joys of aviation. From powered-parachutes and trikes to traditional fixed wings and even amphibians and rotorcraft, ultralights are fun, exciting, and in most cases, remarkably affordable. Flying ultralights is not a step up or down, but a step into a completely different and exciting sector of the flying community.
