The tax rate on a gallon of distilled spirits increased from \$1.10 to \$3.20 in October 1917 and to \$6.40 in February 1919. The War Prohibition Act did not become effective until July 1, 1919.

Alcohol Prohibition Was a Failure | Cato Institute

Vinegar is an aqueous solution of acetic acid and trace compounds that may include flavorings.Vinegar typically contains 5–8% acetic acid by volume. Usually, the acetic acid is produced by a double fermentation; converting simple sugars to ethanol using yeast and ethanol to acetic acid by acetic acid bacteria. Many types of vinegar are available, depending on source materials.
