Decide on whether or not to open the air exchanger vent. During the summer months, there are advantages and disadvantages to both. Leaving the vent open allows more fresh air in, but also draws more heat

and makes your air conditioner work harder. Leaving the vent closed won't bring as much heat in, but you would be relying more on filtered air.

vented for direct vent/two-pipe, ventilated combustion air, or single-

pipe applications. The 26,000 BTUH model can use the same 2--pipe venting system using outside air for combustion, but is not considered direct--vent. A Bryant Legacy Control and Legacy Air Conditioner or Heat Pump, can be used to form a complete Legacy Line System.
