### **(PDF) Tugan-Baranowsky and Effective Demand**

Capitalism is the most prominent in our current global economic system. Its main characteristic is that its most means of production and property are privately owned by individuals and companies. The government has a limited role in such an economy limited to management and control measures. So a capitalist economy is a liberal economy.

### **Capitalist Economy: Meaning, Features, Merits and Demerits**

This book provides an introduction to basic as well as advanced macrodynamics, viewed as a disequilibrium theory of fluctuating growth. It builds on an earlier attempt to reformulate the foundations of macroeconomics from the perspective of real markets disequilibrium and the conflict over income distribution between capital and labor.
