### CIBSE - CIBSE Guides

Guide B1 Heating. This document, which forms chapter 1 of CIBSE Guide B, deals with the selection, design, commissioning, operation and management of most types of heating systems in buildings. It deals specifically with nondomestic buildings though much of the contents will apply to domestic communal heating.

---

### Module 36: Air source heat pumps - CIBSE Journal

The 5 separate parts for CIBSE Guide B (B1, B2, B3, B4 and B5) produced in 2001 and 2002 were amalgamated into one complete document in 2004, with minor editing to correct errors and to remove duplication, some sections, tables, equations and figures have been renumbered for consistency. Publisher Information

CIBSE Technical Publications | CIBSE HK Branch

For new buildings, the guide provides a matrix to assist in the selection of heating systems that are likely to operate at an appropriate SPF. This uses a combination of room heat loss, heating emitter types and heating flow temperatures to assess the likely SPF for air (and ground) source heat pumps.

---

CIBSE Guide B3: Air Conditioning and Refrigeration | Build Up

CIBSE Guide B: Heating, Ventilating, Air Conditioning and Refrigeration, provides guidance on good practice for the design of heating, ventilation and air conditioning systems . It has been developed over more than 70 years, with the Steering Groups for each edition reflecting the evolution of technology and priorities within the industry.

### CIBSE - Building Services Knowledge

A new edition of Guide B Heating, Ventilating, Air Conditioning and Refrigeration has been in preparation for some time and is about to be published, replacing the previous 2005 version. Guide B has been one of CIBSE's main publications since its first appearance as a loose-leaf volume in 1940.

---

### Guide B essentials – air conditioning and refrigeration ...

CIBSE Guide B - Heating, Ventilating, Air Conditioning and Refrigeration Details During 2001 and 2002, a completely new edition of CIBSE Guide B was published in the form of five separate 'stand alone' books.

---

### GUI B Heating, ventilating, air conditioning and refrigeration

According to CIBSE Guide B - HVAC / 2005, clause 3.3.2, the duct air velocity is not a major factor in the constructional specifications of the ductwork. On the other hand the velocity of air flowing through a duct can be critical, particularly where it is necessary to limit noise levels and has a major impact on the pressure drop.

---

### CIBSE - Building Services Knowledge

Guide B provides guidance on the practical design of heating, ventilation and air conditioning systems. It represents a consensus on what constitutes relevant good practice guidance. This has developed over more than 70 years, with the Steering Groups for each edition of the Guide expanding and pruning the content to reflect the evolution of technology and priorities.
