How can I adjust the governor in my 2016 Club Car EX40 EFI gas engine to go just a little faster? Mechanic's Assistant: Has the vehicle turned into a gas hog? And how does it start -- same as usual? No. Yes. Mechanic's Assistant: What is the model of your '16 electric? Precedent

Club Car Gas Engine Governor

The governor helps keep your club car from overheating when the engine gets too hot. If you adjust the governor you'll need to check the engine temperature yourself. This automatically voids your warranty. If you have problems with your club car due to overheating or other engine troubles, the company often won't pay to fix it.

How to Disable a Governor on a Club Car | SportsRec

The method to remove or adjust a governor on a club car varies depending on the type of governor the car has. It is dangerous to disable a governor completely on a club car because there is a strong chance of damage to the engine. A safer method to gain speed in a club car is simply to adjust the governor's settings.
