Comparative linguistics | Definition of Comparative ...

Comparative case studies may be developed on the proposition that selected cases reflect the functioning of a common underlying structure, somewhat analogous to comparative linguistics. For cross-cultural translation of color terms, a formal Munsell color chart can provide a common structure on which to map various language terms for color.

Linguistics - The comparative method | Britannica

In linguistics, the comparative method is a technique for studying the development of languages by performing a feature-by-feature comparison of two or more languages with common descent from a shared ancestor and then extrapolating backwards to infer the properties of that ancestor. The comparative method may be contrasted with the method of internal reconstruction in which the internal ...
