I have the sears LT1000 (green color). There is a safety switch under the control level that engages the mower blades. I have to lift the level and lower it to be able to start the motor sometimes. Also there are safety switches at brake pedal and of course under the seat. hope that helps someone.

Where are all the safety switches on Craftsman ... - iFixit

Craftsman Mower Model 917.289240 is a YTS3000 with a hydrostatic drive. The issue your mower displays appears to originate in the transaxle. I am sure that you already checked all the belts etc. so it is possible that you may have to purge the air out of the system. the instructions for that should be in your owners manual.

I was mowing on my 917.271832 LT1000 21hp and , I engaged the break/clutch to shift into reverse, heard a grinding noise and now my mower won't engage into gear. I have to push hard when the clutch is engaged to get the mower to change gears, and when I do get it into gear nothing happens. The mower will start and blade will run fine. Any ideas ...
