*Sample Crowdsourcing for Operations Applications*  
Crowdsourcing software development or software crowdsourcing  
is an emerging area of software engineering. It is an open call for  
participation in any task of software development, including  
documentation, design, coding and testing. These tasks are  
normally conducted by either members of a software enterprise  
or people contracted by the enterprise.

*Crowdsourced Transportation Platforms (Road), a promising ...*  
Crowdsourcing mobile apps are sprouting like mushrooms in app  
stores. If you've used Uber, Airbnb, or Easy Taxi before, then you  
probably have an idea how they work. People sharing resources  
for consumption, whether product or service, is a trend that is  
shaping our digital habits.

Crowdsourcing Application Development. Back in January I talked with Eric Knipp, who manages Gartner's Application Platform Strategies research team, about some of the opportunities and challenges he saw on the horizon for application developers. During that conversation, he mentioned an intriguing idea that he was exploring: That crowdsourcing could be much more useful to enterprise app dev ...

## *How to Crowdfund Anything | Inc.com*

Crowdsourcing is the practice of turning to a body of people to obtain needed knowledge, goods or services.

## *The Apple business model: Crowdsourcing mobile applications*

Crowdsourcing is a sourcing model in which individuals or organizations obtain goods and services, including ideas and finances, from a large, relatively open and often rapidly-evolving group of internet users; it divides work between participants to achieve a cumulative result. The word crowdsourcing itself is a portmanteau of crowd and outsourcing, and was coined in 2006.
