Networks: Fall 2015 Homework 3 Solutions David Easley and Jon Kleinberg (1) We know that in a second price auction bidding your true value is a dominant strategy— that is, no matter what the

others do you are better off bidding truthfully. So the fact that bidders 3 overbids does not affect bidder 1's optimal bid. He should bid v 1 = 3 / 4. (2a) Yes, it is optimal for the buyers to bid ...
