The funding, which will come largely from an anonymous private investor with a second phase from crowd-funding, was arranged with the help of EMC Corporate Finance. The capital injection will be used to fund the construction of a new state-of-the-art winery and a major drive into the US, Scandinavian and Asian markets.

"EMC is the best management company I have ever rented from. Their office staff is always right there to help me when I need something done in my home. Their maintenance staff has always been very kind, professional and helpful when they have come to repair or replace something. They have even taught me how to do certain things myself.

IGBT Applications Handbook Introduction The IGBT is a four layer, semiconductor device that combines the voltage characteristics of a bipolar

transistor (collector - emitter) and the drive characteristics of a MOSFET. The concept was first documented in a Japanese patent by Yamagami, which was filed in 1968.

IGBT Applications - MAFIADOC.COM

These variables are only some of those that render minpad data sheet values of limited use in a real application environment. 1 pad = in reference to a thermal test board, a board having a nominally 1 square area of copper plating, at the center of which is mounted the package; typically the additional trace area required to carry power and ...

About EMC | EMC Management Consultants Ltd

Our second free Entrepreneurs' Evening, hosted jointly with Close Brothers Asset Management, was a resounding success. More than 70 people were at the County Cricket Ground, Hove, to hear a talk by Nigel Jenkins who founded Unijet in 1981 and sold it 17 years later to First Choice Holidays for £110m.
