How to Set the Timing on a 350 Engine | It Still Runs

Three gasoline-fed Olds V8s were offered in A/G-body cars, the 260, 307, and 350; the latter only available in 1978-1980 Hurst/Olds and 442 models. By far, the most common Olds V8 in this chassis (and a few others as well) is the 307. Most Cutlasses got the Y code engine; 'Y' is the VIN code for this engine.

Olds FAQ -- 350 CID Engine Detail

At the rpm levels the Engine Masters Challenge is being run, I feel this is the better option. If someone is planning to build a serious 350 Olds for street [pump gas] use, this is the route I'd recommend. "If a guy wanted to push a small-block Olds to the 700-horse level for a racing effort (and believe

Oldsmobile V8 engine - Wikipedia

General Motors-owned Oldsmobile produced the Rocket 350-cubic-inch V-8 engine from 1968 to 1980. The Olds V-8 was unrelated to

other GM 350 V-8s. GM often mixed and matched its 350s with different make and model cars. However, other than the Cadillac Seville, the Rocket 350 only powered Olds models. Although it was ...

Oldsmobile Rallye 350: Why There's No Muscle Car Like It

Setting the ignition timing on a 350 engine means you synchronize the rotation of the distributor with the rotation of the crankshaft. This ensures that the spark plug at each cylinder fires at the correct time. Every vehicle is equipped with a tuneup decal somewhere inside the engine bay that provides the correct ...

OLDSMOBILE 350 V8 - Diesel World

The Oldsmobile V8, also referred to as the Rocket, is series of engines that was produced by Oldsmobile beginning in 1949. The Rocket, along with the 1949 Cadillac V8, were the first post-war OHV V8 engines produced by General Motors. Like all other GM divisions, Olds continued building its own V8 engine family for decades, adopting the corporate Chevrolet 350 small-block and Cadillac Northstar ...

Reference Manual: Chapter 1: Engines: Oldsmobile V8's

Olds 350 is any engine produced by Oldsmobile from 1968 to 1980 with bore of 4.057, stroke of 3.385 and output of 160-320 hp. Rocket 350 is any Olds 350 engine bearing the "Rocket" name until it was dropped from air cleaner decal in '75.

Oldsmobile V8 Engines - Street Rodder Magazine

That year 350 Olds engine has deep dish pistons for lower compression. Earlier heads, #4 or #5 castings will help but if you want to make it come alive go with some flat top pistons, mild cam with 110 to 112 degree lobe separation, around 490 lift dual pattern, a good Quadrajet and an older Offy OL4B intake.

70' Oldsmobile Rocket 350. Rebuild pt1

Oldsmobile FAQ 350 CID Engine Detail. Tuning / Power Boost. In 1970, the 350's had 9.0 CR with a 64cc head. In 1971 the CR dropped to 8.2 with the same cc.

350 Oldsmobile V8, Engine | Speedway Motors

The '75 Olds shop manual says all V8 engines except the Omega 350 are identified by a code tape (engine code letters, ie WQ and production date, manual uses 123) installed directly above the engine unit number which is stamped on the engine fill tube. I did just find the stamped number (when I cleaned the engine I missed it.)

Olds 350 engine identification - Oldsmobile - General ...

A unique deck lid spoiler and a fiberglass W-25 cowl induction hood definitely signaled this was no ordinary Olds. But the Rallye 350 was much more than an appearance package: The sole powertrain option was a bulletproof 350 cubic inch V8 engine with an impressive 310 horsepower and 390 pound-feet of torque.
