irreplaceably useful.  
Drawing (just like  
photography) is one of  
the basic forms of  
visual communication.  
Drawing is used to  
record objects and  
actions of everyday life  
in an easily  
recognizable manner.  
There are two major  
types of drawings:

drawing is a type of technical drawing that is used to convey information about an object. A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. Usually, a number of drawings are necessary to completely specify even a simple component.
