eScience Labs collaborates with hundreds of higher education institutions to provide a traditional hands-on laboratory experience to students engaged in online and blended learning. Through a combination of hands-on science lab kits, virtual learning tools and customized digital curriculum, eScience Labs helps higher education institutions

expand and strengthen science comprehension.

### | eScience Labs

Post-Lab Questions 1. State your hypothesis (developed in Step 8) here. Be sure to include what you think the pH will be, and why. My hypothesis is that the water will have a pH of 7 because water is neutral (7). The sodium bicarbonate will have a pH

greater than 7 (between 8 and 14) because it is a base. The acetic acid will have a pH less than 7 (between 1 and 6) because it is an acid.
