Sequence of Study: Courses taken in the Freshman and Sophomore years, either at Sacramento State, or at a Community College or transfer college, directly contribute to the upper division (Junior-Senior) program. For example, upper division work in Computer-Aided Design (CAD) develops skills introduced in freshman graphics and CAD courses; upper division analytical courses depend on the ...

Various definitions of transmissivity as it stands in the groundwater hydraulics literature fall into one of the following categories: 1. The rate of flow under unit hydraulic gradient through a cross-section of unit width over the whole saturated thickness of the aquifer (Bear, 1979; Kruseman and de Ridder, 1990).2.

What is the Main Focus of a Nuclear Engineering Degree? Nuclear engineering is the most integrated of the engineering disciplines. The many components of nuclear systems (medical imaging, nuclear fission reactors, ultrasensitive contraband detectors, and fusion reactors) must all be understood as well as how they relate to one another.
