Ionization - GPS
4. Plenum rated DC power cables will be provided by Global Plasma Solutions with each system. 5. If the 24VAC input power supply is required, wire the DC power cord's stripped leads into the terminal. The terminal block is marked to show the positive and negative output. Wire nuts are required for the 90-266V input power supply.

Global Plasma Solutions for Ultimate Protection. Global Plasma Solutions uses cold plasma to kill 99.6% of contaminants in less than 15 minutes. The GPS 2400 technology produces natural, friendly, oxidizers that will eliminate contaminants and odors in your home or office.

COMPACT SELF-CLEANING IONIZATION SYSTEM

GPS' NPBI technology works to safely clean the air inside industrial, commercial and residential buildings. The patented technology uses an electronic charge to create a plasma field filled with a high concentration of + and - ions. As these ions travel with the air stream they attach to particles, pathogens and gas molecules.
