Further to my previous comment, I remember a pair of “handed” Gray Marine 6-71 engines, with Twin Disc marine gearboxes (Allison Division of GM) that had been taken from a landing craft, so they had been built during WW II. They still had their brass plates on the flywheel housing with the official number issued by the US Bureau of Ships.

Steve Hendren can thank his dad, Bill Hendren, for teaching him everything he knows about engine building. In fact, the whole Hendren family is an integral part of the evolution of Hendren Racing Engines in Rutherfordton, NC. It's that family formula that helps crank out 140-160 engines a year like this GM 604 engine. Find out what goes into making this a mean race engine!
