Harley Diagnostic Codes To access codes ... engine and cruise) should illuminate. ... NOTE: To determine if a code is current or historic, clear the displayed code by pushing in and holding the odometer reset button (longer than 5 seconds) until 'clear' comes up.

~~CV Performance | Harley Diagnostic Trouble Codes~~

You don't need to disconnect the battery. Just clear the codes. You should have pulled the main fuse before you disconnected the speedo and tach. That is the reason the check engine light is on because it threw some codes for that. Once you clear them the check engine light should stay off unless you have something wrong.

~~Harley Davidson Sportster: How to Reset Check Engine Light ...~~

The check engine and temp lights come on after a few miles. I checked the codes and got codes P1019 and U0184. I also checked the fans come one when I test them but when needed. I changed the temp sensors in the head and radiator in the left lower fairing. The U0184 code went away but the light still comes on and I still get code P1019. Reply
