Hitachi 50VX500 Projection Television ... - ManualsOnline.com

I have an Hitachi Ultrascan HD television. When I turned it on today, it has blue lines running through the picture. I tried the convergence adjustment. The blue line is obviously out of alignment but I can't get any of the lines to move when I try to adjust. The red line flashes every few seconds but I can't get any of the lines to move.

I have an Hitachi Ultrascan HD television. When I turned ...

If your TV does not have a magic focus feature or if you still can't get into DCAM using the methods described above try this procedure. One some hitachi TV sets there is a small button located on the front of the convergence board. This is the side that faces the front of the TV. Its very hard to see from the BACK of the TV.

This morning when the tv was turned on the picture looks misaligned as there is part of the top of the picture is sagging which makes the color off.

Hitachi Ultrascan HD - Digital Receiver needed? | Home ...

I have a Hitachi Ultrascan Digital HDTV. We have had no problems with our TV until yesterday. Quite suddenly, we have curved distortion of colors and double images in the upper right and lower left corners. I've tried the Magic Focus and it gets about half way through stops and displays a "5" in the lower left corner of screen.
