IMPLOSION? Thanks to collapsing birthrates

Why civilizations die (Tzav 5777) | Jonathan Sacks | The Blogs  
Past and present civilizations failed and fail for many reasons, but the number-one predictor of a civilization's survival is its sense of religion-or lack thereof. So argues First Things columnist David Goldman in How Civilizations Die (and Why Islam Is Dying Too). The strength of a civilization's

How Civilizations Die by David P. Goldman

Time makes things to change. In the past also Ancient valley Civilization, Mayan Civilization etc. They die because they cant survive the change. Our present civilization will die for our children and so on. Civilization come and go.

Dying Too) by David Goldman, Spengler. You've heard about the Death of the West. But the Muslim world is on the brink of an even greater collapse.

Book Review: David Goldman's "How Civilizations Die"

Why civilizations die. Sometime between the middle of the eighth and ninth century the majority of the Mayan people simply disappeared. There have been many theories as to why it happened. It may have been a prolonged drought, overpopulation, internecine wars, a devastating epidemic, food shortages, or a combination of these and other factors.

How Civilizations Die - Wikipedia

In How Civilizations Die, David P. Goldma Thanks to collapsing birth-rates in most european countries, France, Italy and Germany are on a path toward self-extinction within our current century. In comparison, birth-rates in Muslim countries are declining faster than

Naturally, any harm to that large, centralized population can potentially lead to a civilization's collapse. Such a blow might come in the form of genocidal warfare, epidemic disease or geological upheaval. The Mayan civilization, for instance, faded from prominence after the 16th century Spanish invasion brought...
