In graphic design, a grid is a structure (usually two-dimensional) made up of a series of intersecting straight (vertical, horizontal, and angular) or curved lines (grid lines) used to structure content. The grid serves as an armature or framework on which a designer can organize graphic elements (images, glyphs, paragraphs, etc.) in a rational, easy-to-absorb manner.

Grid (graphic design) - Wikipedia

Notice how the header of this website layout takes a creative approach to aligning the text: its placement shows off the design of the product that the image is advertising. This continues in the grid of images below the header, where blocks of text and product photos are equally balanced and set each other off.
