Mazda F engine - Wikipedia

It's never an easy job figuring out what kind of forklift engine you have. Even for a seasoned parts person, it can be troubling. This article will be covering the easiest way to identify your Mazda forklift engine whether it's an FE, F2SA engine, or F2SM engine. The Mazda FE and F2SA engines are used by both Hyster and Yale. TCM uses the F2SA belt drive as well but more often uses the ...

Mazda Forklift Engine - 2.0L or 2.2L? - Intella Liftparts

I had 1 oil change at 5000 per the dealership. I had the dealership change the oil. At about 7000 heard a slight noise but I wasn't concerned. At 8500 it got loud as if I had bearings loose.

pump. To ID this engine the top timing cover will have a '2.0' in raised letters that is hard to see as it is behind the water pump. Ignore the FE cast into the side of the cylinder head as the head is also used on the F2 (2.2) models and will also have the FE cast letters.

Mazda6 Engine Problems — Car Forums at Edmunds.com

The Mazda FE-DOHC was the DOHC variant of the FE. The official Mazda engine codes are FE-DE and FE-ZE, depending on output level. It is still commonly called the FE3 because of its head castings. The FE-DOHC shares the same dimensions as the original FE-SOHC, including the square 86 mm bore × stroke and it has an ideal 1.74 rod/stroke ratio.

First of all the engine has the problem with overheating. The reason can hide in the bad head gasket. Also, the coolant fan doesn't do its job as good as should. Try to keep the radiator clean and the required coolant level for this engine to prevent overheating in the future.

TrueDelta | Mazda CX-5 engine Problems

Sounds like the pneumatic engine governor under the mixer (carb) is going bad. If you dead head the tilt cyl's, putting the engine under load & accelerate the engine- do the symptoms change? If the engine rpm raises & then plateaus & stays there, replace the governor
