### BSc Management

Economics is the social science which studies economic activity: how people make choices to get what they want. It has been defined as "the study of scarcity and choice" and is basically about the choices people make. It also studies what affects the production, distribution and consumption of goods and services in an economy.. Investment and income relate to economics.

**Management and Leadership MSc - Cranfield University**

Etymology. The word telecommunication is a compound of the Greek prefix tele (τῆλε), meaning distant, far off, or afar, and the Latin communicare, meaning to share. Its modern use is adapted from the French, because its written use was recorded in 1904 by the French engineer and novelist Édouard Estaunié. Communication was first used as an English word in the late 14th century.

**Telecommunications - Wikipedia**
