pollution control and natural resources law, see Cecilia Campbell-Mohn et al., “Sustainable Environmental Law: Integrating Natural Resource and Pollution Abatement Law from Resources to Recovery.” Natural resources, in general, belong to the state or federal government unless found on private property or rights to them have been obtained from the government.

Natural Resources | Environmental Law Institute

Property rights in a tract of land, a coal mine, or a spring creek consist of control over that resource. An important feature of a property right is the ability to exclude others from using the resource. The right to use, but not to exclude others from use, is a highly imperfect (or ill- defined) property right.
