**New Waves in Epistemology | D. Pritchard | Palgrave Macmillan**  
The reason for the rapid advancement is partly due to the fact that various schools and movements inside epistemology have developed different answers to classical epistemological problems, and partly due to the fact that formal methods from logic, probability theory and computability have been utilized to deal with many of the same issues and used for applications outside traditional epistemology. New Waves in Epistemology reflects these changes by letting up-and-coming scholars describe ...

Search Tips. Phrase Searching You can use double quotes to search for a series of words in a particular order. For example, "World war II" (with quotes) will give more precise results than World war II (without quotes). Wildcard Searching If you want to search for multiple variations of a word, you can substitute a special symbol (called a "wildcard") for one or more letters.
