So the essence of public international law - what gives it its legal authority - is the consent of states, there is no higher sovereign. The idea is that states are free to do as they choose - there are no limits on state behaviour - except for the rules on public international law that they have chosen to consent to.

Revision Notes Public International Law: courses ...

International law as a branch of state law, as external public law and only for that reason binding on the state. The outstanding positivist has been the Italian jurist Anzilotti. In his views the binding force of international law can be traced back to one supreme, fundamental principle or norm, the principle that agreements between states are to be respected, or as the principle is better known, Pacta sunt servanda.
