IMPROVING

Building number relationships and number sense can be a struggle. According to the common core standards, students in the 1st grade should be able to count to 120. By 2nd grade students are expected to understand multi-digit numbers up to 1,000.

3 Math Routines to Build Number Sense - Mr Elementary Math

Number Talks. What is a Number Talk? A Number Talk is a short, ongoing daily routine that provides students with meaningful ongoing practice with computation. A Number Talk is a powerful tool for helping students develop computational fluency because the expectation is that they will use number relationships and the structures of numbers to add,...

Number Sense Routines, Grades K-3 | Stenhouse Publishers

In other words, number sense is the foundational building block for all strands of mathematics. As students build their number sense, mathematics takes on greater meaning. Mathematics becomes more about reaching understandings than following rigid sets of rules. With strong number sense, children become more apt to attempt problems and make sense of mathematics. It is the key to understanding all math. (Shumway - Pg. 8) What is Number Sense?
