It's powered by the Johnson\Evinrude 115 Turbo Jet. When it idles, I hear a rattle coming from under the engine. Once you power-up, the rattle stops. From my googling, it seems that a lose impeller is the culprit. Has anyone had any experience tightening this impeller? I don't want to make an expensive

Re: Replace 115hp OMC Turbo Jet Motor
An omc 115 is no different than a J/E block. However unless you have a new adaptor already mounted to the new engine it will be a bit more involved than just 3 bolts. If you do have a new adaptor and your old one is in good shape sell the old parts on ebay.

The performance kit you mentioned and all unavailable parts can be found at turbojetmarineproducts.com. They will also be your best resource for info as most omc dealers have never seen a turbojet. Like yourself I was dedicated to my boat and have squeezed as much performance out of the setup as I could.
