Paper roller ...](#)

Abstract If you'd like to investigate the physics of amusement park rides, then this project is for you. You'll build a roller coaster track for marbles using foam pipe insulation and masking tape, and see how much the marble's potential energy at the beginning of the track is converted to kinetic energy at various points along the track.

Roller Coaster (AP) Physics

During today's activity, you are going to design your own model roller coasters using foam tubes and marbles. I'd like for you to start by drawing your roller coaster on paper before building it. Along with your drawing, give your roller coaster a fun and descriptive name and make a sign for it.

Paper Roller Coasters - Scientific American

Your roller coaster must be either removed or thrown away by May 31 at 1:10 pm. Even if I do not have you in class that day. 20 points will be taken off, if project is still in my room by 1:10 that day.

Physics Project: Paper Roller Coaster
Introduction. Have you ever ridden a roller coaster? Have you ever wanted to design your own? There are plenty of expensive toys and even video games that will let you build your own coasters—but in this project you'll make one out of paper and tape, and learn about roller coaster physics along the way!
