This is the manuals page for Radio Shack. In this page you find schematic, users and instructions manuals, service manuals, technical supplement, leaf leads and other good stuff.

**Pro-93 - The RadioReference Wiki**

Using Win93, program an out-of-range frequency into some channel. On the PRO-93, select that channel in "manual mode". Press FUNC TUNE. The scanner will no search up (or down) from that frequency. If you let it enter a "valid" range, it won't go back to the invalid range, so you'll have to select the channel and hit FUNC TUNE again.
