Display not fitting entire screen - Dell Community
For my 1080p native resolution I have to set Underscan to 0% to fill the screen properly. I tried setting my desktop resolution to 720p and now in CCC I can select the three options under "Enabled Image Scaling" so I selected "scale image to full panel size" and set underscan til it fit my screen. I went into a game and tried to set 720p ...

Display not showing full screen - Find Answers
Also, if I set the resolution to 1920X1080 using my display port connection, I have the same problem not filling the screen. If I switch to hdmi connection using 1080p resolution, it would fill the screen, but I'm limited to max resolution 1920X1080 and can not use 4K resolution. So the problem happens only when using display port connection to ...

Windows 10 Not Fitting On Screen | How To Fix
Minecraft won't fill my monitor when I play in fullscreen. It claims to still be running in 3840x2160 (my native resolution) but it only takes up part of the screen. It claims to still be running in 3840x2160 (my native resolution) but it only takes up part of the screen.

4k (3840X2160) not filling screen in windows 10 | Community
Cannot display Full Screen using ATI Radeon ? I just tried on a Samsung 24″ S24A350H, and I've test with VGA output from display card to the Monitor working fine with 1920 x 1080 60Hz. There is a HDMI port in this monitor and I've DVI output from my ATI Radeon 5750. So I plug ... Cannot display Full Screen using ATI (AMD) Radeon ? Read More »

Samsung LED Monitor Not Expanding to Fit Screen ...
I have a new Inspiron 15 running on WIndows 7. When I open a Windows file or a web browser, the display does not fill up the whole screen, and there is a "gap" at the top of the screen showing the desktop background. Changing the resolution doesn't help. Any idea on how I can make the gap go away?

Cannot display Full Screen using ATI (AMD) Radeon ...
About 2 inches of the screen on the right side is just black and the bottom is a dark gray color about 1/4". I didn't make any changes to my screen size or resolution and all the drivers say they are up to date. When I plug the laptop into my TV with HDMI it takes up the whole screen like normal. Thanks for any suggestions!

Drivers - Screen resolution not fullscreen - TechSpot Forums
On one I had connected Samsung SyncMaster P2450H without any problem and adjusted the monitor resolution to 'fit screen' as 1920x1080 does not fill the whole monitor. For the other computer I have ...

my screen resolution wont fill screen - September 2008 ...
So I decided to pick Civ 5 back up and reinstalled it onto my computer and proceeded to boot it up. I tried to set the resolution to 3840x2160 and when I did it didn't fill out the entire screen. I'm left with a square box with large black bars around it. The only way the resolution will fill out the screen entirely is if I set to 1920x1080. It also doesn't matter if I set it to fullscreen or ...
