## The Making of Town House - a digital watercolor tutorial ...

I'm building 3D objects in Sketchup, then exporting those as 3D Studio .3ds files, and importing in to Photoshop for lighting. I can save preset complex lighting, but don't see any way to save a preset for the camera angle. (In Photoshop CS6, the camera angle exported to the .3Ds file, but no long...

In previous versions of SketchUp, guides were called construction geometry because that's basically what they are: a special kind of entity that you create when and where you need them. They aren't part of your model because they're not edges or faces. This means that you can choose to hide them or delete them — like other annotations,
