Software Engineering Principles and ... - Free Computer Books
Good set of heuristics for any software engineer. 20 years back I read Code Complete by Steve McConnell and it's been a big influence on me as a software engineer. This book imo, is similar but more relevant to current engineering practices. And to boot, it's more concise.

Software Engineering Book Written By

The book is an inspiring jump into the fascinating mind and life of a genius who, in some ways, reminds me of a version of Leonardo da Vinci with a gift not only for art, design, and
