The Solubility and Temperature Gizmo allows students to measure the effect of temperature on solubility of two different substances, including salt, by adding varying amounts of a chemical to a beaker of water to create a solution and then measuring the concentration of the solution at the saturation point.

ANSWER KEY FOR SOLUBILITY TEMPERATURE GIZMO PDF

a graph showing the relationship between solubility and another variable such as temperature or pressure. a substance that is dissolved in another substance to form a solution. a homogeneous mixture of two or more substances. a solid, liquid, or gas in which a solute is dissolved to form a solution.

Solubility Equilibria Review and Questions - KEY

Solid Solubility and Temperature. The solubility of a given solute in a given solvent typically depends on temperature. Many salts show a large increase in solubility with temperature. Some solutes exhibit solubility that is fairly independent of temperature. A few, such as cerium(III) sulfate, become less soluble in water as temperature increases.

Solubility and Temperature Gizmo : ExploreLearning

For example, sugar is a solute that is dissolved into the solvent water. In this Gizmo, you will test how temperature affects how much solute will dissolve in a solution. Activity A: Solubility Before you begin, check that Potassium nitrate is selected and the Temperature of the water is 20°C.

Solubility Equilibria Review and Questions - KEY Understand what is meant by molar solubility (S in molarity), solubility (S in other units), and solubility product (Ksp). Be able to calculate S from Ksp or visa versa. Understand how common ions affect solubility and be able to illustrate this effect by calculation.

Solubility And Temperature Gizmo Assessment

Add varying amounts of a chemical to a beaker of water to create a solution, observe that the chemical dissolves in the water at first, and then measure the concentration of the solution at the saturation point. Either potassium nitrate or sodium chloride can be added to the water, and the temperature of the water can be adjusted.
