Space Mission Engineering: The New Smad or SMAD 3rd edition

Mission Engineering As we define it, mission (and systems) engineering is the process that takes a set of broad objectives and constraints and then proceeds to define an affordable space system to meet them. SSD can support the entire space mission analysis and design process. and can also provi ...

The new volume Space Mission
Engineering: The New SMAD, has been
published and the associated course
captures what is new in space mission
engineering. There are a number of new
features never before available such as
the web-based down-loadable Excel
models so users can quickly and easily
specialize the data to a mission or
missions of interest to them.
