Standardized Tests. Standardized tests are meant to show proof of progress. They are not pass/fail tests. The test results show how your student compares nationally to other students in the same grade level who took the same test at the same time of year (Fall, Midyear, or Spring) when the test was normed.

4 8 16 In the first call to the function, we only define the argument a, which is a mandatory, positional argument. In the second call, we define a and n, in the order they are defined in the function. Finally, in the third call, we define a as a positional argument, and n as a keyword argument.. If all of the arguments are optional, we can even call the function with no arguments.
