LT 9500 with a 410HP
MBE 4000 Mercedes
engine. I have a no
start when the weather
gets cold, below 40
degrees. In the
instrument panel, the
no eng display will
come up & the engine
turns over but won't
start. After cycling the
switch a few times, i
get my normal dash
display with digital
odometer milage, etc.

On two separate trucks I have witnessed the same problem. Both were 03-05 model OM460 435hp engines that lost their prime due to a pin hole leak in the fuel supply line coming out of the filter going into the pump. You have to remove the alternator and bracket to get access (Mercedes) to verify if the leak isn't that
