The Encyclopedia of New York City is an engrossing book of marvels, as monumental in its way as its wondrous subject."—Edward Kosner, Wall Street Journal [a] wonder of a reference book."—Lori D. Kranz, The Bloomsbury Review

~~Encyclopedia of New York State—Google Books~~

New York, constituent state of the U.S., one of the 13 original colonies and states. Its capital is Albany and its largest city is New York City, the cultural and financial center of American life. Until the 1960s New York was the country's leading state in nearly all population, cultural, and economic indexes.

~~Encyclopedia of New York City | Yale University Press~~

The need for a New York City encyclopedia, that both researchers and general readers would find useful, was recognized by Edward Tripp of Yale University Press in 1982. In 1986 the New York Historical Society agreed to co-publish such a book.

~~The Encyclopedia of New York City by Kenneth T. Jackson~~

The Encyclopedia of New York City is a comprehensive reference book on New York City, New York. Historian and Columbia University professor Kenneth T. Jackson edited this work that combines informative and interesting information about New York City into one volume, first published in 1995 by the New-York Historical Society and Yale University Press and now available in its second edition, published in 2010.

~~New York City — Encyclopedia Britannica~~

The settlement was established around the Cathedral of the Incarnation. The climate is temperate. Located near New York City, the area has good transportation connections with the adjoining metropolis. A library, churches of major denominations, and hospitals nearby all serve the city. There is some part-time employment in the immediate area.
