About The Great Influenza. The definitive account of the 1918 Flu Epidemic. "Monumental"-Chicago Tribune. At the height of WWI, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide.

## ~~The Great Influenza by John M. Barry: 9780143036494 ...~~

The 1918 influenza pandemic was the most severe pandemic in recent history. It was caused by an H1N1 virus with genes of avian origin. Although there is not universal consensus regarding where the virus originated, it spread worldwide during 1918-1919. In the United States, it was first identified in military personnel in spring 1918.

No disease the world has ever known even remotely resembles the great influenza epidemic of 1918. Presumed to have begun when sick farm animals infected soldiers in Kansas, spreading and mutating into a lethal strain as troops carried it to Europe, it exploded across the world with unequalled ferocity and speed.

~~The Great Influenza Quotes by John M. Barry~~

The Great Influenza is Barry's magnum opus, a well-written, impeccably researched, and infinitely interesting work about the influenza pandemic of 1918. The book as the byline claims, tells the epic story of the deadliest plague in history.
