Memory, Judgment, and Decision Making - CORNELL UNIVERSITY

The memory system plays a key role in the decision-making process because individuals constantly choose among alternative options. Due to the volume of decisions made, much of the decision-making process is unconscious and automatic. Information about how a decision is made is remembered and used for future decisions. Memory is susceptible to biases, but it is integral to the formation of preferences and to differentiation between choices.

The Memory of Judgment: Making Law And History in the ...

Hands down the best introduction/overview of judgment and decision making that's out there. Although it was published in the 90's and so neglects a great deal of the more modern work, it gives a solid background of the classics, and prepares the reader for more advanced readings.

The Memory of Judgment: Making Law and History in the ...

“The Memory of Judgment is a superbly crafted and imaginative argument in defense of the law and its ability to maintain integrity in the face of traumatic history. . . . The Memory of Judgment offers not only new perspectives on the trials of major Nazi perpetrators but, more important, an alternative way to read and analyze legal attempts to confront the traumatic history of Holocaust.”—

(PDF) The Memory of Judgment: Making Law and History in ...

The science of judgment and decision making involves three interrelated forms of research: analysis of the decisions people face, description of their natural responses, and interventions meant to help them do better. After briefly introducing the field's intellectual foundations, we review recent basic research into the three core elements of decision making: judgment, or how people predict ...
