Making small, simple design changes to a web site can significantly increase profit margins according to a new book, Web Design for ROI: Turning Browsers into Buyers and Prospects into Leads. Organizations must treat their web sites as an investment if they want to reap the benefits of financial return and competitive advantage.

Unlike traffic, it's the web design, not marketing activity, that has an impact on conversions. But together, traffic times the conversion rate equals results. ROI Tip: Design your website for your users. For example, build a site that is mobile friendly with responsive design. Build it specifically to turn visitors into customers.

3. WEB DESIGN DELIVERS IMPRESSIVE ROI. With web design's massive ROI, it's easy for company decision-makers to recognize its potential value. For perspective, the average ROI of UX is \$100 for every \$1 invested — that's a significant return. It's essential, however, to partner with a web design agency that prioritizes your ROI.
