In participating in the work of art, they become artists in their
activity. They learn to know and honor individuality in whatever
form it appears. The fountains of creative activity are discovered
and released. The free individuality which is the source of art is
also the final source of creative development in time.

Your Brain on Creativity - WebMD

Creativity is defined as the tendency to generate or recognize ideas, alternatives, or possibilities that may be useful in solving problems, communicating with others, and entertaining ourselves and others. (page 396) Three reasons why people are motivated to be creative: need for novel, varied, and complex stimulation.

What We Ache For Creativity

What We Ache For is a practical book allowing readers to embrace the urgency and necessity of their creativity, whatever their medium -- writing, painting, sculpture, dance, music, or film.
